APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the  
source. It is understood that the amount of water herein granted  
is only a temporary allowance and that the final water right obtained  
under this permit will be dependent upon the amount of water  
actually placed to beneficial use. It is also understood that  
this right must allow for a reasonable lowering of the static water  
level at permittee's well due to other ground water development  
in the area. A measuring device must be installed and measurements  
of water use kept. The well shall be equipped with a 2-inch opening  
for measuring depth to water. If the well is flowing, a valve  
must be installed and maintained to prevent waste. The State  
retains the right to regulate the use of the water granted herein  
at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second but not to exceed 31.54 million gallons annually.

Actual construction work shall begin on or before February 17, 1978

Proof of commencement of work shall be filed before March 17, 1978

Work must be prosecuted with reasonable diligence and be completed on or before February 17, 1979

Proof of completion of work shall be filed before March 17, 1979

Application of water to beneficial use shall be made on or before February 17, 1981

Proof of the application of water to beneficial use shall be filed on or before March 17, 1981

Map in support of proof of beneficial use shall be filed on or before \_\_\_\_\_
